

DSP3200 DIGITAL ACTIVE LOUDSPEAKER VERSATILE AND AUTHENTIC SOUND

Beautifully mirroring the curves of our larger loudspeakers, this compact loudspeaker delivers as much quality sound as conventional loudspeaker of eight times the physical volume - delivering the atmosphere and emotion of a live performance straight into the home.

The precision-manufactured cabinet is finished in high-gloss white or black and is perfectly suited to an extensive variety of room locations including bookshelf, on wall, as well as on floor stands. Its size makes it the perfect partner to other Meridian DSP loudspeakers in a variety of installations.

THE DSP3200 AT A GLANCE

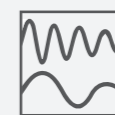

DSP active advantage – self-contained audio system with no amplification equipment needed.

On-board DSP provides thermal and dynamic bass protection – enables high level use for prolonged periods of time.

Partners perfectly in a surround sound system with the DSP3300 for centre elevation which delivers wide, full range dispersion.

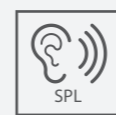

Features Meridian's unique Enhanced Bass Alignment (EBA) technology - bass, mid and treble all reach you at the same time, in perfect alignment.

Perfectly suited to a wide range of room positions – on or in furniture, on floor stands or on wall brackets.

Advanced listener controls including time-compensated balance, listening axis and Enhanced Boundary Correction – greater speaker placement flexibility.

Outstanding performance – two powerful, built in 75W amplifiers with DSP provide a maximum output level of 114dB at 1m.

Multiple installation applications in home and commercial environments enabled by Meridian's unique Design and Specification Service.
