AUDIO UPGRADE: THE NEW AND IMPROVED MERIDIAN M6 LOUDSPEAKER

Meridian Audio's state-of-the-art loudspeakers provide technology integrators with the ability to create the very best listening experience for their customers. Over the last year, Meridian Audio has introduced a number of impressive new products to its premium audio, line-up, including the newly updated M6 Digital Active Loudspeaker featuring Meridian's unique 'mono' mode technology.

The new M6 is now available as a single loudspeaker with the addition of a mono mode developed from the work undertaken on the DSP320. Both the left and right channels are summed, meaning you don't lose any of the information, enabled using Meridian's unique mono algorithms, first developed in the popular in-wall DSP320. The M6 is the perfect room-filling option whether used individually, in a stereo pair or within a surround-sound system.

The award-winning M6 Digital Active Loudspeaker incorporates high performance amplifiers and a sleek, cylindrical design to complement any interior design scheme. It features Enhanced Boundary Control to eliminate bass boom, and a wide dispersion pattern to create superb, natural sound that can be enjoyed from any position. With a revised and improved cabinet resin, the enhanced and visually stunning M6 Digital Active Loudspeaker is shipping now.

Designed and manufactured in the UK, all Meridian's loudspeakers are the perfect addition to the modern interior setting whilst still providing a flawless sound solution for home cinema and media room applications. Featuring an unmatched range of innovative technologies, Meridian loudspeakers guarantee the best possible immersive audio experience for all, in any application.

ABOUT MERIDIAN AUDIO

Since 1977, Meridian Audio has been crafting innovative, elegant, high performance audio solutions. From its compact DSP loudspeakers with integrated amplification, to its user-friendly music management platform, Sooloos, Meridian delivers easy to install, high resolution audio systems for home cinemas and whole home solutions. The Meridian Audio experience is now available in the latest models from Jaguar Land Rover, thanks to a collaborative partnership between these two leaders of British innovation and engineering. Meridian's renowned audio quality has extended to new markets including consumer electronics, in partnership with LG Electronics (LGE), marine and airline, ultimately transforming the way people experience sound, wherever they are.
