Connecting the i80 dock

To connect the iPod

1. Connect one end of the i80 Dock cable to the connector on the back of the i80 Dock.
2. Connect the other end of the cable to the i80 Dock connector on the F80.
3. Insert the plastic cover supplied with your iPod onto the i80 Dock.
4. Mount your iPod on the i80 Dock.

While connected the iPod battery is recharged from the product.

USB Connector

The USB connector optionally allows you to charge your iPod from an external USB power supply or computer. The i80 light changes from green to red when charging.

Setting iPod control

The instructions on this leaflet explain how to control the iPod from the F80 using the front panel controls or remote control.

If you prefer to disable iPod control, for example to view video on the iPod while playing the sound through the product, proceed as follows:

To enable/disable iPod control

Press [Adjust, Setup] to display the SETUP menus.

Press [Setup] to display the i80 Ctrl option.

You can choose between Enabled, which allows you to control the iPod from the product, or Disabled, which allows you to play the iPod without controlling it.

USB/i80 dock cable

Designed and Engineered by Meridian Audio Limited
