

251 POWERED ZONE CONTROLLER

POWERFUL CONTROL

Designed for use in-room or in-rack, the 251 Powered Zone Controller contains the functionality needed to create a powered Hi-Res audio zone. The Meridian 251 features two powerful, high performance, cool-running 100W Class D Amplifiers that allow this versatile 1U tall product to be easily partnered with any passive loudspeaker. Accommodating both local and distributed audio, whether analogue or digital, the MQA-enabled Meridian 251 is also an endpoint for our award-winning Sooloos music management platform, along with Roon support.

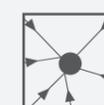

Control features including IP and IR allow this versatile solution to be seamlessly integrated into the home.

THE 251 AT A GLANCE

Speaker-level outputs enable the 251 to work with any passive loudspeaker. Additional line-level outputs provide further flexibility and simple subwoofer integration.

Multiple input options, including optical and coax digital and analogue.

Compact and easy to install – 1U form factor with optional rack kit.

MHR – Unique Meridian High Resolution up-sampling to offer the best possible performance and lossless audio performance from all of your sources.

Lip Sync to realign audio and video following separation.

MQA delivers master quality audio in a file that's small enough to stream or download.

IP, IR, Trigger and Third Party control options enable seamless integration and flexibility within the home.

Cost effective solution in multiple installation applications, enabled by Meridian's complimentary Design and Specification Service.
