

258 EIGHT CHANNEL POWER AMPLIFIER COOL AND POWERFUL

The Meridian 258 is a dedicated rack-mount Eight Channel Power Amplifier. This powerful, high performance, cool-running Class D amplifier is simple to integrate into a wide range of applications and delivers >100W per channel into 4 ohms or >70W per channel into 8 ohms.

At only 1U high, the compact 258 is a category changing amplifier; bringing Meridian high resolution sound quality to every zone it powers.

THE 258 AT A GLANCE

High efficiency (>95%) Class D amplifiers generate minimal heat, making the 258 a cool-running and stackable solution.

Short signal path construction delivers excellent isolation between the 258's eight channels.

Measuring only 1U high, the 258 is a compact unit that requires minimal space in-rack.

Aluminium construction combined with audiophile-grade components ensure a category-leading quality of sound.

Linear power supply provides isolation from the AC supply to deliver both unbeatable audio performance and reliability.

Once registered, the 258 is protected by the Meridian five year warranty.

'Fit and forget' installation solution with installer-friendly technologies and diagnostic features.

Multiple installation applications in home and marine environments enabled by Meridian's unique Design and Specification Service.
