THE G65 AT A GLANCE

A 7.1 Surround Controller with class leading audio fidelity - Meridian Room Correction for perfect sound in any room.

Re-clocking of the digital audio signal to remove timing errors for superior clarity and resolution.

A Linear Power Supply ensures superb performance on both analogue and digital systems.

Control 4 and Crestron control options plus RS232, Meridian Comms.

Multiple outputs which enable the creation of both passive and DSP based systems from the same Surround Controller.

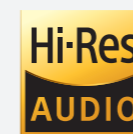

Discrete and easy to install - 2U form factor with rack shelf option.

Unique Meridian High Resolution up-sampling to offer the best possible performance from all of your sources.

Multiple installation applications in home and commercial environments enabled by Meridian's unique Design and Specification Service.
